FREE TRADE.

The President has issued a proclamation declaring free trade between the United States and Porto Rico. Republicans are coming to their medicine.

LET HER GO.

It is in the wind that ten new houses, residences, will go up on Holt Avenue at a cost of \$2,000 each, and that this is only beginning or what is to follow in Mt. Sterling. A gentlemen was here last week for the purpose of organizing a company for the purpose of putting in another ice plant.

PREACH THE GOSPEL.

It is the business of the ministry to preach the Gospel and we who declare not the entire gospel. If the people go astray they should be told about it, whether they in person violate the law or by their contribution, they caused the weak to fall or start the young in wrong paths.

WILL COMPLY.

There has been a report on the go about Mt. Sterling that the Mt. Sterling Water, Ice, Gas and Electric plant Co. would not complete the stand pipe in accord with their contract. That our people may be at rest on this matter, we would say it would be very foolish in a corporate body to agree and then to violate agreement. First, they know before they enter into an agreement and second to ask for a change would weaken confidence, both as to financing capacity and competency as to making an agreement. The Water Company have a contract and we may rest sure it will be complied with to the letter. Yet all men bear watching, and if they are in good faith they will invite it.

TO WORK.

A few business men who are interested in the welfare of Mt. Sterling should organize themselves into a Commercial Club, a Men's Club or something of the kind, whose business it shall be to promote the interest of Mt. Sterling, this and nothing more.

DON'T REPEAT.

We have the June number of the Georgetownian. The matter is good enough, but that's all. Georgetown College deserves better. Cheap labrics, poor workmanship and amateur artists make a cheap appearance.

AUTOMATIC FLAGMEN.

New Device for Avoiding Accident Near Railway Stations.

With a view to preventing accidents at level crossings in the neighborhood of railway stations, a very ingenious mechanism has recently been tried in France. It consists essentially of a huge hook or catch, made of iron, which is connected with a lever at the station by means of a wire, through which a current of electricity passes. When it is lying in its place the train passes over it quite easily, but as soon as it is raised it catches a lever which is attached to the engine. The lever thus caught comes an air valve on the engine to operate at once, so that the locomotive is brought to a standstill within a very short distance. In foggy weather the use of such an apparatus cannot be over estimated, as it is calculated to prevent a train running into another which happens to be delayed at a station.

Japanese Dentists.

The Japanese dentists perform all their operations in both-handed with the thumb and forefinger of one hand. The skill necessary to do this is acquired only after long practice, but when once it is obtained the operator is able to extract half a dozen teeth in about 30 seconds, without even touching his fingers from the patient's mouth.

A Word for the Boy.

If a boy holds the screen door open long enough to get out, all the women in the house yell to him about flies, but a woman caller can hold it open an hour, and her hostess will look pleasant.—Athens Globe.

BIRTHS.

On Saturday afternoon, July 20, 1901, to Emmet Leiford and wife, of Spencer, at Beckerville, Ky., a daughter—Dessie Blaydes.

Omar Fratman Killed.

Omar Fratman went out from White Sulphur Springs, Bath county, with a young Ohio man by the name of Oldham. Somehow, when the gun was in range with Fratman it went off, striking Fratman just over the heart and he expired almost instantly. He was well known here, where for years he held a position in the Monarch Milling Company.

T. F. Rogers, real estate agent, has sold a lot of 136 feet on Van Antwerp Avenue to T. M. Leach who will erect a nice residence on it.

THE BRITISH SOLDIER.

Not So Well Paid as the American—Passions Granted.

The British soldier receives a shilling a day; the United States soldier one shilling nine pence. The American soldier has better rations, but Tommy Atkins has a more liberal allowance for clothing. In other respects, says W. E. Curtis, in that regard, Round-Herald, the conditions are about the same, except that the British government pays pensions only to those who are entirely disabled by wounds or sickness. With all her wars the pension list of Great Britain is not one-fourth as large as that of the United States. The annual appropriation of our congress for pensions would support the whole British army.

You see retired soldiers employed in various capacities. They are given preference in business houses. They are used by the district messenger companies and receive certain privileges and considerations from the police and the municipal authorities that are not granted to ordinary people. It is common for bank messengers, janitors of buildings, private watchmen and other men engaged in light employment to wear military medals of honor which are always accepted as a good recommendation. You see new stands and fruit stands at the street corners and in the parks attended by men with similar decorations, or with empty coat sleeves, and such privileges are esteemed of great value.

THE DEADLY MAUVACA SNAKE.

Its Bite Renders the Victim Speechless and Kinds Fatal.

A tragedy comes from Troncon, Maricao, in the state of Vera Cruz, of a house-keeper, in which one of the party was fatally bitten by a snake known as mauvaca, says the Mexican Herald.

The victim, D. Gregorio Flores y Fogia, accompanied by a party of friends, had been passing the day in the country, and were returning to Troncon. In riding through some undergrowth which reached well up on the horse's side the head bitten by Mr. Flores y Fogia sprang suddenly into the air and then stood still, trembling violently. His companions, seeing from the rider's face that something was wrong, started to go to him, but their horses fled in terror, showing absolute terror. Meanwhile Mr. Flores y Fogia, who seemed unable to speak, fell from his horse, making signs to his friends in the direction of something in the underbrush, where, to their horror, they saw an enormous snake making off through the bushes. The injured man, who had lost his speech, communicated to his companions that at the moment their horses refused to approach the snake was still wound about his leg, having just bitten him. He was removed to his home, but in spite of everything that could be done for his relief, he died a few hours later.

How to Move Money.

Mistake.

A man should not be blamed for the mistakes he makes; he should be rewarded as he profits by them.—Athens Globe.

Poisoned.

During the past week Owings Lane lost two 1300-lb. steers. He had 20 steers grazing on Coley Graves' farm, near Springfield. On Friday before a tenant had forgotten a package of Paris green, leaving it where the cattle found it. Only two died. Another was seriously effected.

The Middle West and Kentucky suffered severely from the heat yesterday. The temperature rose above the 100 mark in several cities and heat records were broken in many places. There were many deaths and prostrations. There are no prospects of relief.

T. F. Rogers, agent for Judge W. H. Holt, has sold to the International Investment Company to resident lots on Holt Avenue. Amount paid about \$2,100.

Grand Lodge of Elks meet at Milwaukee to-day.

SUMMER COON.

Licksilleet, Janville, Ky.

A big time with the Elks in our city a few nights ago. Halls and hotels made a grand display along the decoration line. There were five thousand bolts of different colored paper rapped and twisted a round about the hotels. Olde Taylor cut a big figure. Only for Olde Taylor the big Elk meeting in our city would be a total failure to outsiders. Its no win in kicking on Olde Taylor; there are not nothing that

can be gotten up and carried out successfully with a big supply of Bug Juice, that is why we people up here in Licksilleet are so stuck on that grate sole savor. I hope he will soon get out of our other good preachers in line with his way of thinking in regard to self saving, his views on putting the world on a religious base has him mine all the time. I never did believe the churches of the world would be able to capture all the souls of men and women until things were fixed and adopted to suit all classes of thinking and believing people. I have been reading one of those Summer Bibles and I can find no place where it condemns a man or woman for having a little pleasure in this life, such as dancing and drinking if you like it. The Summer bible says we be unto him or her that forces themselves to do things that the don't want to do. I notice in one place in particular in my Summer Bible where Olde Taylor says eat drink and be merry while you are down there for I will make you think you had struck a hornets nest when I get you in my clutches. The onley and shure way to reform men and women is to let them have there one way a bout this dancing and Bug Juice business. how much sweeter a young couple looks in a ball room shaking there mud hooks if there is no holes in there socks then that would look in a church pulpit lising to a good olde time broad gauge preacher. my, my, just think of it. what in the world is the people a going to do if the a sound and let the worms eat up all the long green tobacco in the kistry. if you want to see a industry get of people take a trip to frankfort and let george Everett and John Panch who you trust the State con box. mine ant patchen.

I seen the honorable Henry Watson take the train for Morehead this morning. he had a small grip, tho I dont no what it contained, it might of him lightning. Ben Franklin us to bottle up lying, I am told this are barreling it now. well redem dont get excited the papers say there is a warm wave coming, so prepare your selves with plenty of ice and calary water. mr edler how is politics going to be down here this fall is there going to be any thing in it if so let us see. I all ways take a hand in politics when there es any thing in it. I dont requir no big amount to make me interested in the wel far of our law framers. we havent much to move up here, but we have the B. and O. to handle any amount of religio if he is plenty of bug juice mixed with it. every thing gone now it is if well hacked with calary water and as squar as a plaid.

SUMMER COON.

Prayer services for rain were held in nearly every city and town in Missouri Sunday in accordance with the Governor's proclamation, fixing the day as one of prayer and fasting for divine deliverance from the drought.

Disgruntled Louisville Republicans want another primary.

"The Land of the Sky."

Europe may have her Switzerland, the West its Colorado, the Pacific coast may glory in her Sierra Nevada, and British Columbia in her Cascade range, but nowhere on the face of the earth is there a region more picturequely, more charmingly beautiful than the mountain country of western North Carolina, poetically known as "The Land of the Sky." It is true there are mountains of greater elevation in each of the localities named, but the greatest canvases in the gallery of art are not the choicest gems, nor is the beauty of nature to be measured on geodetic lines. Where the mountain ranges of the West are rugged, barren and forbidding, those in Western North Carolina are robed in deep-hued forests to their highest summits. Where the greater peaks of the Sierra Nevada frown, those of "The Land of the Sky" smile through banks of rhododendrons and azaleas. Where the valleys of the one are rocky and impassable gorges, in the other they are fern-carpeted forest labyrinth, through which crystal streams tumble merrily along over moss-green rocks in their race to the open.

Picture in your mind a region where range after range of heavily forested mountains parallel each other like waves of the sea, where interlocking valleys are rich with verdine and flowers, and where silver streams murmur unceasingly. Imagine an air so light and pure that breathing itself seems a new-found joy; then throw over all a canopy of bluest of Italian blue, and you have "The Land of the Sky."

This rugged mountain region embraces the extreme western portion of North Carolina and the eastern edge of Tennessee. Within these confines are several districts alike in their general features, but each having distinct charms and advantages peculiarly its own. The one most generally visited has Asheville for its tourist center.

None the less beautiful, however, is that country in and about Blount, Kioek and Grandfather's Mountain, of which Lenoir is the entrepot. Southeast of Asheville are the Flat Rock, Tyron and Sapphire regions, which attract many visitors because of the charming environments. Southwest of Asheville, and between that city and Murphy, is the Balsam Mountain country, wild, solitary and Swiss-like, with the Hayward Sulphur Springs as the chief tourist rendezvous. Over to the west, and near the Tennessee line, is the less rugged, but more picturequely beautiful, territory in and about the Hot Springs, while almost due north from here and across the Tennessee line looms up, in the majesty of its towering height, Roan Mountain, crowned by a hotel, the highest building east of Colorado, and a favorite summer gathering place for people from near and far. Taken as a whole, no similar area on the western continent compares with "The Land of the Sky" in beauty or sublimity. In square miles it is the equal of Switzerland. In attractiveness, accessibility and health it is its rival.

The Southern Railway, which brings "The Land of the Sky" within easy reach, approaches it from all directions of the compass. From St. Louis daily sleeping cars are operated direct to Asheville, which is an all-the-year-round resort, thus putting St. Louis tourists into that beautiful region with only one night on the road.—Globe-Democrat, St. Louis, July 14, 1901.

# FACTS and OBSERVATIONS

From the tunnel he walked most of the way, about 4 miles, to Caney, talking with gangs of men at work on the roads and with citizens. We reached the Day House after midnight. How soon the road will be built from its present terminus to town (probably 14 or 15 miles) can not be told.

## COAL.

Some cannel coal has been mined but the principal work has been the opening of entries. We were informed by the superintendent of mines, Mr. A. C. Morris, that when the work was under full head about 300 to 400 people would be employed. The average thickness of the coal is said to be about 28 inches, and the deposit is said to cover about 3,000 acres.

The Walnut Grove Herald is the name of the village paper now being engineered by J. P. Hancey. It had appeared three times under present name and management.

The editor with Mr. Stephenson is attending to real estate business and several "corner" lots have changed hands at increased prices.

Consideration for the feelings of many of our readers in Mt. Sterling and other towns caused us to say but little about "corner" lots and lots on the principal avenues as far out as 17th street and "just across the avenue from the park" the iron foundry and machine shops, or great university" and we might add from the dynamite mine. We may be excused for saying that the fools are not all dead yet, and that by some plausible scheme or another the money, blinded by the glitter of promised wealth, will be caught.

We are your friend when we advise you to be cautious. A day of reckoning and collapse will come. We are expecting considerable development in mining and timber lands around Caney and along the new railroad.

W. F. Hancey, the contractor and builder, will no doubt be kept busy. The building of the road has given employment to men of teams. The wages have been \$1.25 to \$1.50 per day, or \$3 for a team.

We left town on Thursday afternoon. At the tunnel we took train. Stopped for the night at Mal. Hampton's. He was away from home. He had sold to Chicago gentlemen certain timber on a tract of about 2,000 acres for \$10,000. Preparations are now being made to market the lumber. Montrie Bros. are in charge of the mill. Here we met Mr. J. B. Thompson, of Jackson, who is employed by the owners.

Desiring to catch the train to Jackson, which left the camp at 4 o'clock a. m., we were called at 2:30 o'clock for a horseback ride 14 miles to the camp.

The conductor told us to be there at 4 o'clock. We were there at 3:42, and were disappointed to learn that the train had left at 4 o'clock. A boy on a gray mule was our guide, and we rode a gray horse (observe they were gray). The morning stars sang joy but we did not observe that the trees clapped their hands. A whippoorwill and several bull-

frogs completed the chorus as our way jogged. Boy had returned and there we were. We tarried until about 6 o'clock, hoping to get a velocipede. Failing, we walked to Frozen Creek, about 24 miles, having a promise that the train would stop there at about 10 o'clock. The train whistled after 11 o'clock, we walked out, but somebody had forgotten and the train dashed by. Left again. We enjoyed our breakfast at the noon hour and waited developments as no other train was to go to Jackson till Saturday.

Mr. Murphy, manager in chief of a hand car and section force, took us on. The were only 17 men on that hand car. The writer was on one end of a plank balanced by a man on other end. This four men ride. We rested in the shadow of a cliff at the mouth of the tunnel at the intersection of the roads below Jackson, fanned by the current through the tunnel. We tagged the train west and reached home at 7 p. m. These facts are incident in the life of an editor pushing his business and coming in contact with the people. We thank the people enroute for kindness and courtesies shown.

In the railroad office at Frozen Creek we had met Mr. M. D. Conley and his assistant, Mr. Johnson, State Senator from Louisiana, Ky. Mr. Conley used to be at the head of affairs and is a much worked man. It was he who had both bones of his leg broken by a rock falling on him. He spent some months in a Lexington hospital, was pronounced cured and discharged. He knew that he was not cured, went to Cincinnati and was examined. An x-ray picture showed that both bones were still broken and lapped 14 inches. (We saw the picture.) Another operation was necessary, followed by long confinement in hospital. He now uses crutches, and will probably do so for a long time.

### A Parable.

Behold an advertiser went forth to sow. And when he sowed, some seed fell into handbills and doggers, and the street cleaner came and cleaned them up.

Some fell among concert and theatre programs, and the people being interested in the performance and not in bargains, they were left on the seats or crumpled and thrown on the floor.

And some fell among fake schemes and gift enterprises, and popular contempt sprang up and choked them.

But some fell into legitimate newspapers, which found their way into the homes of the people who had time to read them, and they brought forth fruit, some one hundred fold, some sixty fold, and some thirty fold.

### For Music.

Miss Lida Goodpastor had a class in this city in music last year that advanced wonderfully. Every parent who had children under her were delighted and with this record she will have her number soon. Place your girl with her early. Her next term begins the first week in September. If you wish to confer with her address Miss Lida Goodpastor, Mt. Sterling, Ky.

### New Election Commission.

The new Election Commissioners for Kentucky were commissioned Monday by Governor Beckham. They were C. B. Poyntz, of Maysville, Democrat, James C. Wright, of Newport, Republican, with Sam J. Shuckelford, Clerk of the Court of Appeals as third member.

### Nominated for Legislature.

The Republicans of the Ninety-second Legislative District, composed of Breathitt, Lee and Magoffin counties, nominated James P. Adams, of Magoffin county for the Legislature.

### Killed by Enormous Chain.

A chain weighing four tons fell on six men at the Westinghouse Electric Company's works at Cleveland, O. One man died shortly afterwards, and five others are badly injured.

### All a Mistake.

It's all a mistake if you do not get the Hedges Bros. estimate on that carpenter work you have to do. They are first-class workmen.

### Good Record.

The trotting at Detroit last week was a little inclined to be sensational. Eleata by Dexter Prince won the \$10,000 M. and M. Stake, with Country J., a Kentucky entry, second. Iva Doe, driven by Dig Thomas, was second in the last heat in 2:08.3. Borahum won the 2:08 class trot but had to reduce his record to 2:07.4 to win. Betty G. won the 2:06 pace in straight heats, fastest being 2:05.4. From the way she won the race this former pupil of Dig Thomas is a great mare again this year. In the free-for-all pace some very fast time was made. Coney won first heat in 2:02, but Anacanda won the race by taking the next two heats in 2:02.3 and 2:03.1. In free-for-all trot there were but two entries, Crescens and Charlie Herr. Crescens was much the best horse in this race and trotted away from Herr. The heats were trotted in 2:06.3 and 2:05 flat, which is the fastest heat ever trotted in a race, Directum having trotted some years ago in 2:05.1. It looks as if Crescens might take the trotting record this season. Charlie Herr is a slow horse to get on edge and he will likely be heard from later in the season.

The next Annual Exhibition of the Shelby county fair, one of the oldest and without exception the best county fair in Kentucky will hold its 1901 meeting, beginning August 27 and continue four days. The Floral Hall is made the most beautiful each successive year. The horse, mule, jack, swine and cattle show is not surpassed anywhere on the globe. The trotting is interesting, and order perfect. There are no more hospitable people on the globe than are in Shelby county and every man, woman or child who goes for pleasure will not be disappointed.

### Reteree.

Judge Cochran, of the Federal Court at Covington, has divided the Eastern Kentucky District into thirteen bankruptcy districts. A. T. Wood was appointed referee for this district.

### Pardoned.

Governor Beckham Wednesday granted pardons in the cases of John Jeter, of Carroll county, and Jack Watkins, of Laurel county, serving sentences of two years in the State penitentiary for manslaughter.

### In Good Health.

Kiser Wilson, who left here March 9th for Texas, is now with his cousin, Asberry Wilson, at Horace, Nebraska and is in good health. [Hazel Green Herald please copy.]

### Fireman Killed.

O. K. Sewell, a locomotive fireman, was accidentally killed near Natural Bridge. In transferring some cars to a lumber switch he was caught under the wheels.

### Sold Bank Stock.

At Winchester J. W. Poynter sold to Geo. W. Biehn ten shares of Clark County National Bank stock at \$173.50 per share.

### To California.

Parties contemplating a trip to California would find it to their interest to consider the advantages offered by "The True Southern Route" for both first and second class travel. Daily Pullman standard sleeper, St. Louis to El Paso and El Paso to Los Angeles and San Francisco. Through Pullman tourist sleeper, St. Louis to Los Angeles and San Francisco every Thursday night. No night attitudes and free from ice and snow. An ideal winter way to the land of sunshine, fruit and flowers. Write for rates, time card and full particulars. A. A. GALLAGHER, D. P. A., Iron Mountain Route, 408 Vine St., Cincinnati, O.

### Excursion to Yellowstone Park.

An extensive trip to the Yellowstone Park has been arranged by the American Tourist Association of which Mount Sterling is general manager. Many people of the vicinity are going as the itinerary is leisurely and there are such long stops at all points of interest that the traveler will be able to make extended explorations of such places as Pike's Peak and Garden of the Gods in Colorado. The itinerary of the tour includes a visit to the entire Salt Lake City, and long ride in sight of the Rocky Mountains. Then some features that have made these tours so popular will be prominent this year. There will be utmost privacy for small parties in the Pullman sleeping and dining cars and all the drives will be for the benefit and exclusive use of the tourists. The members of the Association have arranged for a tour of Alaska, and if individual members of the Yellowstone party desire to continue further north the trip will be incorporated in the itinerary. The cost of tickets for these tours will include all expenses everywhere. For full particulars address A. A. Gallagher, D. P. A., 408 Vine St., Cincinnati, O.

### First American Marriage at Cebu.

A romance has ended in the first American marriage celebrated at Cebu. It was the wedding of Miss Marion Jorgensen, of Chicago, and Lieutenant (Colonel) Stacey, of the Ninth United States Infantry. The marriage was celebrated in the presence of all the army and navy officials, with their wives and daughters. They were sweethearts in New York. He went to the war, she moved to Chicago, and married, only to be widowed. In the Philippines Lieut. Stacey proved himself a hero, and the girl's love awoke. She wrote to him. The Lieutenant's reply was immediate. They wrote again and again. Photographs were exchanged, and finally came the letter asking her to be a real soldier's bride. "Cable your reply," begged the impatient warrior. And over the seas went a "Yes" that sent him into the seventh heaven.

### Good Roads Convention.

The third Kentucky Good Roads Convention met in Owensboro. The attendance was over 2,000. A temporary organization was effected, with Mr. Thomas Pettit as chairman and Mr. La Vega Clements as secretary. The temporary organization will be made permanent. The visitors were entertained with a barbecue.

### Japan Gone to War.

Japan has gone to war again. While the government gives out what it deems to be a just cause, the fact in the case is that they are squabbling and fighting because that Imperial Japanese Troop, the pride of all Japan, has just come over to this country and will give free exhibitions at the Lexington Horse Show, Fair and Carnival, August 12-17. Juggling, balancing, wire walking, screen dancing, etc., (about 20 specialties in all), forming one of the most interesting exhibitions, and it is concluded by a most sensational "Slide for Life Act."

### KENTUCKY FAIR DATES.

Kentucky Fairs will be held this year on the following dates, so far as we have been able to secure them. Secretaries whose dates do not appear in this list will confer a favor by reporting them at once: Georgetown, July 23-25 days; Honesville, July 31-4 days; Danville, August 6-1 days; Winchester, August 6-4 days; Madisonville, August 6-5 days; Lexington (Elk's Fair) August 12-6 days; Lawrenceburg, August 20-4 days; Columbus, August 20-4 days; Shepherdsville, August 20-4 days; Lagrange, August 21-4 days; Mt. ### Aged Negroes.

Malinda Mercer, an aged colored woman of Lebanon, Ky., probably the oldest person in the county, died Tuesday. She is said to have been 100 years old. Aunt Malinda, as she was called, remembered that in her childhood, when she was a slave of the Chandler family, she was taken by them to Lexington on the occasion of Lafayette's visit to that city, and that there she saw the General, of whose appearance she retained a distinct recollection.

## Young Women

The entry into womanhood is a critical time for a girl. Little menstrual disorders started at that time soon grow into fatal complications. That female troubles are killing graveyards is proven this. Wine of Cardui establishes a painless and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Many women, young and old, owe their lives to Wine of Cardui. There is nothing like it to give women freedom from pain and to fit young women for every duty of life. \$1.00 bottles at druggists.

Miss Della M. Strayer, Tully, Kan. "I have suffered untold pain in menstrual periods for a long time, was nervous, had no appetite, and lost interest in everything. In fact was miserable. I have taken four bottles of Wine of Cardui, with Theodore's Black Draught, when needed, and to-day I am entirely cured. I cannot express the thanks I feel for what you have done for me."

For advice in cases requiring special directions, address, giving residence, Dr. J. C. Leavelle, Secretary, Department of the Cardui Wine Company, Chattanooga, Tenn.

### State Election Commission.

A meeting of the State Election Commission will be held in Frankfort Monday, July 29. The members of the Commission will be sworn in and a secretary will be elected. The Commission will determine whether the old election officers of Menefee county or new ones to be selected shall hold a local option election in August.

### POWELL COUNTY ITEMS.

Miss Laura Hanks, the handsome daughter of Mr. and Mrs. W. J. Hanks, of near Bowen, was married on the 10th to Dr. Morton Forkner, Judge G. M. Derickson officiating.

At a meeting of the School Board, Prof. D. A. Thomson, of Clay City, was elected Principal of the Stanton Graded School. Mr. Thomson is one of the foremost educators of this section of the State, possessing as he does excellent qualifications and high character.

In the biennial report of the State Auditor to the General Assembly, now in course of preparation, will be a tabulated statement showing that the taxes due on individual deposits in the banks of the State which the depositors failed to list with the County Assessors for the years 1900 and 1901 amount to the enormous sum of \$578,384.04. This is due on deposits, not assessed, amounting to \$121,707.108.

In an interview in St. Louis, William J. Bryan gave out the statement, with reference to the Ohio Democratic Convention ignoring him and the Chicago and Kansas City platforms, that he intended to fight to the bitter end every effort to force the abandonment of these platforms.

### For Governor.

David Lamont is being talked for by Democrats for Governor of New York, and recent visits to his country home by David B. Hill have strengthened this talk.

### Judge Temple at Death's Door.

Judge O. P. Temple, a leading jurist of the Tennessee bar at Knoxville, the only living opponent of President Andrew Johnson, and author of "East Tennessee and the Civil War" and "Covenant, Puritan and Cavalier," is seriously ill and not expected to live. He is eighty-two years of age.

# Poison Oak Poison Ivy BOTANICAL REPTILES

Their Sting Sets the Skin on Fire and Fills the Veins with a Violent, Lingering Poison

These plants seem to partake of the nature and character of the serpent; in winter time being comparatively harmless, but when warmed into life by spring and summer heat they become extremely venomous and spiteful, emitting a milky juice that burns and blisters like a fiery acid, producing quick inflammation and painful swelling. Some persons are so susceptible to these vegetable poisons that coming in their vicinity will produce almost as much discomfort and pain as handling them; their thin and sensitive skins seem to absorb from the surrounding atmosphere the acrid juices emanating from these plants. There is seldom a picnic or family gathering in the woods but that some member of the party comes in contact with Poison Ivy, Oak or some other hurtful plant or weed, and through the open pores the poison is carried to the overheated blood. Poison Ivy is found clinging to tree trunks, fences or rocks, sometimes reaching great heights; the leaves are nearly square in shape, smooth and shiny and three on each stem; the flowers are of a greenish white color, and the berries pale green or white. The Oak is a small shrub, seldom more than three feet high, its size depending upon the nature of the soil, location, etc.; the leaves are long and pointed with saw-like edges and a downy appearance underneath. While the two plants are entirely unlike in appearance, the poisonous effects are very similar. After the swelling subsides the skin remains for a long time in a rough and inflamed condition, dotted here and there with bad looking ulcers and little festering sores. It is truly remarkable with what regularity and certainty the disease returns, and always on schedule time, appearing the same month, day and hour, almost that it did the year before. Don't be deceived should all the signs of the poison vanish soon after the first attack—the acrid juices have been taken through the open skin pores into the blood, and the most persistent and faithful use of external remedies can never dislodge them, and for years to come, you may expect to endure the same bodily tortures; the blood in the meantime becoming so saturated and charged with the poison that each succeeding attack leaves the body weaker and recovery more uncertain and slow, and thus the once simple malady ends disastrously.

For every poisonous plant, tree, shrub or flower, nature has wisely provided an antidote or cure. The roots and herbs of which S. S. S. is composed quickly, surely and permanently overcome and drive out of the blood and system the effects of Poison Ivy, Poison Oak, Virginia Creeper, Thunder Weed, Sumac and vegetable poisons of every variety. S. S. S. will be found an invaluable and perfect antidote for poisons of this class. There is never any return of the aggravating symptoms after a course of S. S. S., as it destroys every vestige of the poison.

Don't abandon hope because of repeated failures. State your case to our doctors; we feel sure they can help you. Medical advice will cost you nothing and is strictly confidential. Book on Blood and Skin Diseases free. **SWIFT SPECIFIC CO., Atlanta, Ga.**

### RETURNED EVERY SPRING FOR YEARS.

Mrs. A. H. Bennett, of Toxco, Ga., whose case is similar to thousands of others, who came in contact with these plants, says: "When eight years old my little brother and I were poisoned by handling poison oak, and it broke out on us every spring for eighteen years. Some one recommended S. S. S. which cured us completely, and we have seen no signs of the eruptions for several seasons."

SAY! DON'T FORGET THE BIG STREET FAIR AND CARNIVAL AT MT. STERLING AUGUST 28th, 29th, 30th and 1st!

The Cincinnati Post says: A

gigantic scheme to form a colony

of dairymen in the rich farming

country surrounding Lexington

has been launched by the Kentucky

Pasteurizing Company, of which

Col. Raymond L. Dillings, of Cov-

ington, is at the head. Behind

this plan are prominent Cincinnati,

Dog Up Treasure.

Mr. J. E. S. Ott, of Buena Vista

Boyle county, while hoeing in his

garden unearthed 1,600 silver dol-

lars. About two years ago he was

told by a gypsy fortune teller that

he would discover a large treasure

there and shortly afterwards found

\$2 a few yards from where the

\$1,600 was found. The treasure

was in a wooden box of two-inch

plank and the coins were consid-

erably tarnished by exposure. The

money was buried in war times.

Grayson county bonds Nos. 1,047

to 1,069 inclusive, amounting to

about \$11,000, were paid off last

week and destroyed. This leaves

about \$11,000 yet due, which will

be paid this year; thus wiping out

Grayson's bonded debt.

War Pensions.

The pensions for the war veterans

continue to increase. The ex-

penditure for pensions for the fiscal

year ending June 30 was \$188,-

## LAND, STOCK AND CROP.

If you have anything to sell or buy try an ad in this column.

J. N. Ross sold his farm of 90 acres near Carlisle to S. A. Rice, for \$65 per acre.

Brook & Ballstock bought of Chas. Meag near North Middleton, 60 head of hogs at 54c per lb., weight about 225.

At Riceville, Ky., 75 cattle stampeded and ran over a cliff 60 feet high. The entire herd was killed and crippled.

E. B. Dooley and L. B. Cockrell sold about 6,000 bushels of Grass seed to Spears & Son, of Paris, at 48 cents for August delivery.

Thomas Henry Clay, of Bourbon county, sold to J. W. Hall 500 head of 80 lb. lambs at 5c.

The following statistics compiled by the Breeder's Gazette, show the rapidly increasing demand for southern cattle in the United States. Since February 1, 1901, 2,000 shorthorns have been sold at public sale at above \$300 average; 1,000 at above \$400 and 504 at an average of \$523.

The July report of Commissioner I. B. Nail shows that the wheat crop of Kentucky will be 21 per cent below the average, owing to the ravages of the Hessian fly. Corn will give 88 per cent, and oats 90 per cent. The tobacco crop will be 20 per cent below the average, while apples give over 50 per cent.

Genuine stamped C. C. C. Never sold in bulk. Beware of the dealer who tries to sell "something just as good."

## Narrow Escape.

On last Wednesday Mr. G. A. Stith and his little niece, Grace Denton Rogers, made a long drive of 60 miles and returned, visiting Mr. D. Swagart, the Shetland pony farmer, to purchase a pony. While driving through Lexington their horse got scared at and collided with a passing street car, but for the coolness of Mr. Stith he managed his horse and no serious results happened. They did not get a pony, for none suited them.

## UNION SERVICE

At the First Presbyterian Church Sunday Evening

Pastor of the Christian church is moved to the very depths of earnestness and the powers of his mighty brain were used to counteract the influences of recent dates regarding the "modern dance and moderate drink" theory. We are not grieved as a trained theologian and if we have in any way misquoted Mr. Clark we will gladly make corrections, but we are risking this as a verbatim. Mr. Clark is the oldest in the Mt. Sterling pastorate, and this bold stand on the part of this pastor, with the largest membership in the city, is in good taste and is really timely and will have the cordial support of his co-laborers in the ministry.

When our Lord felt the multitude it was not a sumptuous banquet, but a bountiful supply of the plain food of the common people. Some persons are fond of using Christ's miracle, when he turned the water into wine, as a warrant and sanction for modern social wine drinking. Why do we never hear the same persons crying for barley bread and fish? He made barley bread on two occasions and wine only once, and when invited on one they should insist on the other also. If not, why not? It goes for the saying, that there were no meat liquors or wine punches served on this occasion, for there was no brewery convenient, and the vast multitude was not made up of our modern "up-to-date," "Best People on Earth," but of the plain, common people who followed the man of Galilee and heard him gladly.

Even the "Best People on Earth" should be careful, but this good should be evil spoken of. The transparent sophistry of the saloon has been that it is only supplying a demand for men who will drink. If this were true, then when all sorts and toppers drop into their graves "Othello's" occupation would be gone. But we all know that even greater efforts are made to create a demand by creating an appetite in the growing generation, and it is amazing that "The Best People on Earth" should give aid and encouragement to such a demoralizing enterprise.

When an institution publicly advertises itself as in league with brewers and as a kind of saloon annex, we are reminded of Mr. Lincoln's quaint saying: "When folks like that sort of thing, that's the sort of thing they like."

If that is condition of membership with the "Best People on Earth," (limited and select) a good many of us will content ourselves with a place among the second best or even the third best. When a society at its inauguration gives prominence to its preface to a pocket edition of Beelzebub's revel with a thousand of his lords, there may be no flame-finger to write the sentence on the wall, but in the minds of many good people the sentence will be clear and plain—weighed and found wanting.

If our bright and brainy boys and young men are to grow into strong, brave and symmetrical men their palm of life must be pitched to a higher key than the rag-time jingle of the street—or the gang's.

## A PREACHER'S DOG STORY.

Coming from a Good Wife It Requires No Voucher.

State Senator John Thompson, according to the Nashville Banner, is about one of the best story tellers in these parts, and his repertoire includes a lot of good ones, but one of these he will stake his reputation for veracity, but he tells one which always produces with the station that was told him by a minister of the gospel, Dr. Barwell.

"Dr. Barwell used to visit my father's home when I was a boy, and the story I am about to tell you was related to me on the occasion of one of these visits. We were out on the veranda smoking one evening after supper. The doctor was fond of dogs, and was a pretty good sportsman, and naturally the conversation turned on this subject.

"Speaking of dogs," said Dr. Barwell, "reminds me of a dog which belonged to a friend of mine in Mississippi. I had been invited to hold services at a church near this friend's home, and wrote him to meet me at the station, some six miles from his house, on the Saturday afternoon before Sunday, the day of the appointment."

"He was on time with horses and we started to his home. I noticed that a very handsome bird dog followed him, and having heard that some one in that neighborhood owned an especially well-trained trick dog, I asked my friend about it.

"That's the dog," at the same time pointing at his dog, which had run ahead of us and was waiting at the forks of the road.

"I asked him to make him perform a trick. He got down, four or five feet, and taking out his pocket-book, held it to the dog's nose. He then took out a silver half-dollar and walking some distance into the woods, raised up a large rock and put the money under it. We then resumed our journey, and when probably half a mile away, my friend called the dog and told him to go back and get the money.

"The dog, without the least hesitation, started back on a run, and my friend explained as the rock was thrown, the dog would be unable to turn over, so would have to scratch under it to reach the piece of money, and he would not probably get home before it had melted there, so he would have to find it further on in his journey."

"However, when we reached home the dog was not there. We ate supper and still the dog did not come, nor had he put in an appearance when we retired at about ten o'clock.

"The next morning we got up about daylight, and hearing a noise outside, we found opened the door and the dog rushed in, dragging with him a pair of pantaloons which he dropped on the floor.

"Of course, we were both mystified, but had not long to wait an explanation, for shortly afterward a man who lived several miles from my father's house rode up on a mule and inquired if a dog and a pair of pantaloons in his mouth had come into the house. The dog at this moment came out on the porch, and the man said: "Why, there's the dog now."

"My friend told his caller that the dog had really brought a pair of pantaloons with him, but he did not understand it himself."

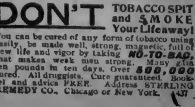

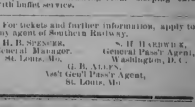

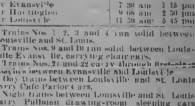

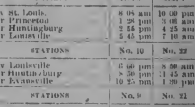

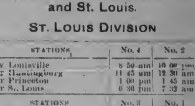

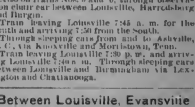

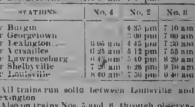

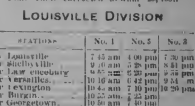

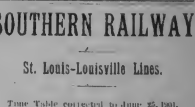

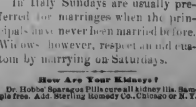

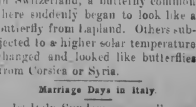

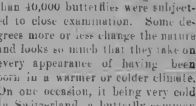

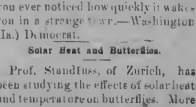

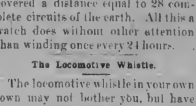

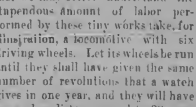

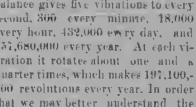

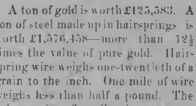

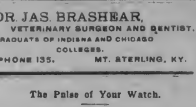

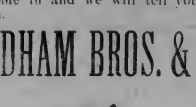

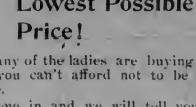

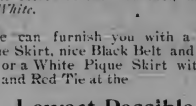

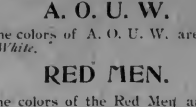

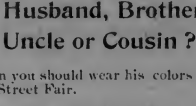

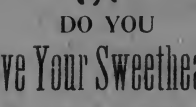

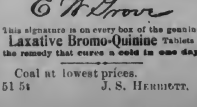

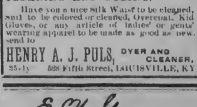

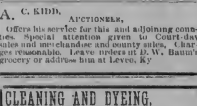

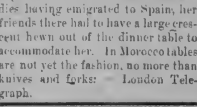

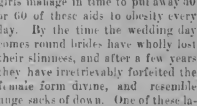

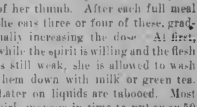

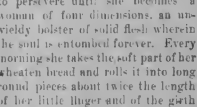

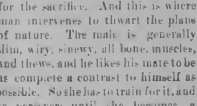

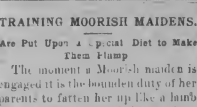

"The man said that late in the afternoon the day before he found the dog scratching under a large rock near the road, and thinking he was after a rabbit, stopped and lifted the rock up, and to his surprise found a half-dollar on the underside.

"He put the money in his pocket and the dog followed him home. The dog happened to be friendly, and the man petted him and gave him his supper. At night when the family retired the dog was put on the outside, but he kept upon a racket, that no one could sleep on the place, and when the man opened the door to drive the dog off he rushed into his bedroom and at once became very quiet, lying down near the foot of the bed, where he slept all night."

"Early in the morning, the man said, he got up and opened the window, and the instant he did so the dog seized his pantaloons in his mouth and jumping out of the window fled."

"The man followed as far as he could get his mule."

"Hearing this story, my friend got the pantaloons, and on searching the pockets found the half-dollar which he had hid under the rock the afternoon before."

## TRAINING MOORISH MAIDENS.

Are Put Upon a Special Diet to Make Them Plump

The moment a Moorish maiden is engaged it is the bounden duty of her parents to fatten her up like a lamb for the sacrifice. And this is where man intervenes to thwart the plans of nature. The male is generally slim, wiry, shrewy, all bone, muscle, and tendons, and he likes his mate to be as complete a contrast to himself as possible. So the lass is trained, and to persevere until she becomes a woman of four dimensions, an unwieldy bolster of solid flesh wherein the soul is entombed forever. Every morning she takes the soft part of her wheaten bread and rolls it into long, round pieces about twice the length of her little finger and of the girth of her thumb. After each full meal she eats three or four of these, gradually increasing the dose. At first, while the spirit is willing and the flesh is still weak, she is allowed to wash them down with milk or green tea. Later on liquids are tabooed. Most girls manage in time to put away 50 or 60 of these aids to obesity every day. By the time the wedding day comes round brides have wholly lost their slenderness, and after a few years they have irrevocably forfeited the female form divine, and resemble huge sacks of down. One of these ladies having emigrated to Spain, her friends there had to have a large-section been out of the dinner table to accommodate her. In Morocco tables are not yet the fashion, no more than knives and forks: London Telegraph.

## PROF. HEAT AND BUTTERFLIES.

Prof. Standtius, of Zurich, has been studying the effects of solar heat and temperature on butterflies. More than 40,000 butterflies were subjected to close examination. Some degrees more or less change the nature and looks so much that they take on every appearance of having been born in a warmer or colder climate. On one occasion, it being very cold in Switzerland, a butterfly came there suddenly began to look like a butterfly from Lapland. Others subjected to a higher solar temperature changed and looked like butterflies from Corsica or Syria.

## RELIGIOUS.

Rev. W. J. Bolin preached to a large congregation at Howard's Mill Sunday afternoon.

Twenty members of the party of Epworth Leaguers on their way to the San Francisco Convention were robbed of money, tickets and baggage checks at Colorado Springs.

Rev. John R. Deering, Presiding Elder of the Harrodsburg district will represent the Kentucky Conference at the Economical Methodist Conference at London, England, Sept. 11-21.

A Preacher Kidnapped—Louis Rogers came in from Kane Ridge 13th to meet Elder W. H. Elliott, of Sulphur, Ky., whom he never saw before and who was to preach the next day at Kane Ridge. Prof. Richard Elliot, of Lexington, had just stepped from the train and Mr. Rogers thought he heard the greeting, "Brother Elliott," and immediately took possession of Prof. Elliot and carried him seven miles in the country before either party suspected a case of mistaken identity. After explanations, a hearty laugh, and a night's cordial hospitality, Prof. Elliot was brought back to Paris in time to fill his appointment Sunday morning. Elder Elliott's horse was sick and he missed the train and failed to arrive at Kane Ridge, a Kentucky Citizen.

The union meeting as per program, will be suspended for next Sunday and Miss Annie Lee Fraser, of Louisville, Field Secretary of the Kentucky Union Sunday Schools organization, will address the congregation at the Christian Church on Sunday School work. We understand she is a fine speaker and will present practical, up-to-date methods. Every one interested in Sunday Schools should hear her.

Sunday evening services with the churches in Mt. Sterling during July and August, will occur as follows:

**JULY.**  
Fourth Sunday—Christian Church—D. W. Robertson.

**AUGUST.**  
First Sunday—Methodist Church—W. J. Bolin.  
Second Sunday—Baptist Church—H. C. Clark.  
Third Sunday—Pres. Church—D. W. Robertson.

Fourth Sunday—1st Pres. Church—John Abbott.  
**DANCING AND THEATRE GOING.**

The following clean cut utterances on the subject of dancing and theatre going are from Bishop McCallister, of Ohio, of the Episcopal Church: "Let me now turn to two subjects in which there is no difficulty of discrimination—the theatre and the dance. The only line I would draw in regard to these is, that of entire exclusion. And yet, my brethren, I am well aware how easy it is for the imagination to stray both these in such an abstract and elementary simplicity, so divested of all that gives them their universal character and relief, that no harm can be detected in either. The question is not what we can imagine them to be; but what they always have been, and will be, and must be, in such a world as this, to render them pleasurable to those who patronize them. Strip them bare, till they stand in the simple innocence to which their defenceless arguments would reduce them, and the world would not have them. If the writer be asked whether in his view, in the pomp and vanities of this wicked world, which are renowned in baptism, are included theatrical amusements and dances, he answers, without hesitation, in the affirmative. If he be asked whether, under the apostles' exhortation, "Be not conformed to this world," they are included as matters of worldly conformity to be forsaken, he answers, certainly. If he be asked whether these things are consistent with the cultivation of a spiritual mind and the maintaining a rightful christian influence, by example, for the good of men and the glory of God, he must answer, they are, in his view, very

inconsistent with such duties. He thinks they are renowned in baptism, that their renunciation is ratified in confirmation, and professed in every participation in the Lord's supper. He prays that the time will come when all communions will unite in rejecting these things."

At the union service at the Presbyterian Church Sunday evening the music was excellent and the preaching very fine.

## DEATHS.

In our last issue we mentioned the death of Spencer Wilson, little son of C. T. Wilson and wife. He survived the operation but a few hours and died on Monday after July 15, 1901. The body was brought to this city on the evening train, and was met at the depot by a large number of friends. The A. O. U. W., of which the father was a member, formed a special escort. The funeral service was held at the Christian Church on Tuesday afternoon at 5:30 o'clock conducted by Revs. H. D. Clark and G. C. Abbott and burial in Macphail Cemetery. Little Spencer, an attractive and sweet child, was in the infant class of the Christian Church Sunday School, taught by Mrs. B. W. Trimble. She speaks in highest of the child. He was attentive, bright, orderly and had never been corrected by her. He is the second one of her class who has died since December 1st. The absence of these dear ones is a great loss to parents, teacher and friends, yet there is the comforting thought that in heaven they await our coming. How bright will that home, how holy and blessed its companionship, how sweet its joys when the trials of this life are over and we go to be with them. In thought and love and life let us live to be with them.

## IN A SIBERIAN CHURCH.

The Whole Service is Intended in the Russian Tongue.

The pilgrims happened into one church where the service was going on. The church was full of soldiers and monks, of rich people and poor people, all of whom were devoutly worshipping. A gorgeous priest, clad in green and gold, led the service, and a gorgeous blue and green boy on each side held up the holy candles. In the background one could see a high priest who seemed to be made of solid gold and who seemed to be a part of the large icon hanging on the wall. It was impossible to tell whether he was really a part of the picture or not, so absolutely motionless stood he there, like a gilded image, till just at the close of the service he stepped down out of the picture, and came forward and stood in front of the last part of the service. His robe was all of shimmering gold, which glittered in golden waves as he moved, and he wore on his head a golden mitre such as Aaron might have worn in the days of his wandering in the wilderness. His long curling hair fell over his shoulders, and he looked just as much like a picture out of the frames on the wall. As he stepped to the front, the other priests stood aside, while this gorgeous, golden high priest led the closing service. A boy choir, with magnificent voices sang the responses. Once the other voices stepped forward, and one of them resumed the jeweled mitre from the golden high priest's head, while he bowed to the icon and crossed himself, and then replaced the mitre.

The whole service was intoned, and while the pilgrims could not understand it, the audience could, for it was in Russian, not in Latin. The people listened very reverently, and often they bowed low and crossed themselves.—Christian Endeavor World

## CARELESS PATRONS.

Loss Considerable Small Change in New York Street Cars.

"Have you any idea how much money is lost in the street cars of this town?" asked a Metropolitan street railway conductor of a New York reporter the other day after he had picked up a dime and stowed it in an inside pocket. "Well, there's a lot of it, and no one knows it better than we conductors. Hunting for coins on the bottom of my car is one of the regular grinds, and any other conductor who has been in the business long enough to get his eyes open is on the same line."

"Last year I made up my mind to put away every cent I found in my car in an old iron bank I had at home for the benefit of my youngsters. I kept counting the coins every night and at the end of the year I had \$6,000. Of course, that's not a harmful amount of money, but it's a right nice pick-up for a conductor. The boys told I made that year was a 50-cent piece. From that the coins ran all the way down to a cent. In the winter time the pickups are especially good, for then everyone has on gloves, and coins slip from the fingers to the floor without the owner's knowing it. The only way to be sure you have all the money is to pick up the gratings on the floor. I do that every night as regularly as I eat my supper."

"Now, I've figured it out that if I find six dollars in one year it's very likely that other conductors average somewhere near that sum, maybe more, maybe less. There are several thousand conductors in Greater New York, so that it's safe to say that at least \$15,000 or \$20,000 is annually dribbled onto the floors of street cars by the passengers. In this estimate I don't include large sums, which are sometimes lost in wallets and purses. A conductor is expected to turn these in at the office, and about all of them do. But the nickels and dimes and quarters are legitimate pickups, and we all have our eyes peeled for them."

## SENSITIVE INSTRUMENTS.

Record Messages That Come Through Center of the Earth

Messages may come through the very center of the globe as well as around it, asserts the London Telegraph. The earth is now said to be more pulsations, rises and falls of level are always in progress. After a prolonged investigation of these phenomena in Japan Prof. John Milne has established an observatory at Nanto, in the Isle of Wight. The days of violent movements are over for the present in that charming region, but the coming instruments will show constant tremblings. Four thousand on an average every minute the earth "shivers." Delicate apparatus for feeling the earth's pulsations, the feeblest throbs or beats. The first findings of an earthquake shock in Alaska, Mexico, Japan or Java has reached Nanto before the news was sent by telegraph. A violent earthquake or quaking takes place, for instance, Japan, immediately waves a thin thin thin through the world and out its surface, and at a huge number of stations where the sensitive instruments are installed the movement is felt. Other things equal, the intensity of vibrations depends on the weight of the medium through which they are transmitted. In sand a shock traveled 325 feet per second; in solid granite, 1,605. Prof. Milne finds that tremors which have come through the very center of the earth reach him with such velocity as to prove that the earth's interior must be more rigid than a globe of solid iron. So distinct and trustworthy are the indications that when a submarine cable has been broken the professor has been able to say that the interruption was due to seismic disturbance and point to the very spot where it had happened.

## The Elks.

The institution of Mt. Sterling Lodge No. 723 B. P. O. E. occurred on last Thursday evening. Some of the business places decorated with the Elks colors and banners waved from houses and business places along the line of march. Lexington and Winchester Lodges were well represented and the initiatory ceremonies were conducted by Esteemed Loyal Knight Broch, Lexington, assisted by the degree teams of Winchester and Lexington. The visiting members were tendered a banquet in the lodge rooms of the Temple building, where pot plants, cut flowers and the Order colors made the room the more beautiful and served an inspiration to the weary Elks. L. C. Riddell passed the supper. Royal H. Elks.

The speech making was by W. S. Bonston and Wood Dupont, of Lexington, and Hon. J. M. Benton, of Winchester.

Refreshments were served to those inclined, and it is said they had a royally good time.

Members received into the lodge are as follows:

Jo M. Conroy,	W. A. Sutton,

## William V. Alexander's Successor.

The appointment of Mr. William V. Alexander's managing editor of The Ladies' Home Journal is announced. Mr. Alexander went to Philadelphia a little more than three years ago to become Mr. Bok's secretary, which position he will continue to fill in addition to attending to his new duties. Going directly from school to enter the service of the "Boston Transcript," Mr. Alexander was attached to the staff of that newspaper for more than twenty years. During most of that period he was the city editor; and he held that position when he was invited to go to Philadelphia. For some years Mr. Alexander was the President of the Boston Press Club and several other local newspaper organizations, and the Vice President of the International League of Press Clubs.

### Escaped Prisoner Captured.

Joseph Spivey, who was arrested three months since, charged with intent to kill, and who made his escape from the Irvine jail, was arrested in Pineville.

DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's, F. C. Duerson.

An old bachelor says the average woman exaggerates except when she's talking about herself.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble followed by the grippe. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. F. C. Duerson.

A political patriot is a man who loves his country for what he can make out of it.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and good health by appetite. F. C. Duerson.

A man wants everything he can get and a woman wants everything she can't get.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Hall's Family Pills are the best.

The only blusterer from which a brave man will take a blow is the wind.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question, the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations."—John Beam, West Middlesex, Pa. No preparation equals Kodol Dyspepsia Cure as it contains all the natural digestants. It will digest all kinds of food and can't help but do you good. F. C. Duerson.

The girl with the biggest patrimony has the best chance for matrimony.

What among human ills are more annoying than piles? The afflictions that prevent active exercise are bad enough, but one that makes even rest miserable is worse. Women are among its greatest martyrs. Tabler's Buckeye Pill Ointment will cure the most obstinate cases, 50c in bottles, tubes 75c.

A man soon forgets his faults when they are known only to himself.

The piles that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. F. C. Duerson.

Those famous little pills, "DeWitt's Little Early Risers," compel your liver and bowels to do their duty, thus giving you pure, rich blood to recuperate your body. Are easy to take. Never gripe. F. C. Duerson.

Do good for good's sake and seek neither praise nor reward.

Imperfect digestion and assimilation produce a disordered condition of the system, which grows and is confirmed by neglect. Herbine gives tone to the stomach, and causes good digestion. Price 80c. Thomas Kennedy.

A dollar unjustly gained can not be justly kept.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy, gentle action. F. C. Duerson.

Every man knows worse of himself than he knows of others.

Those who live on fumes are liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Ointment is promptly applied. Price 25 and 50 cents. Thomas Kennedy.

Nothing flatters a fool so much as asking his advice.

A bad complexion generally results from inactive liver and bowels. In all such cases DeWitt's Little Early Risers produce gratifying results. F. C. Duerson.

It seems there is small probability of an agreement being reached between France and Great Britain over the Newfoundland question.

To eradicate worms from the system give the child plain, nourishing food and White's Cream Vermifuge. The result will be, the worms will disappear and the child become healthy and cheerful. Price 25c. Thomas Kennedy.

Louisville machinists have received official notice that the strike in that trade at Cincinnati is not over and warning machinists to stay away from that city.

White's Cream Vermifuge no only effectually expels worms, but is unequalled as a tonic, and is certain and permanent cure for Chills and Fever in children. Price 25c. Thomas Kennedy.

### Owensboro.

Governor Beckham named Owensboro the place for the annual encampment of the Kentucky State Guard for this year, beginning about August 6.

In some of the Swiss valleys the inhabitants are all afflicted with goitre or "thick neck." Instead of regarding this as a deformity they seem to think it a natural feature of physical development, and tourists passing through the valleys are sometimes feared by the goitrous inhabitants because they are without this offensive swelling. This a form of disease may become so common that it is regarded as a natural and necessary condition of life. It is so, to a large extent, with what are called diseases of women. Every woman suffers more or less from irregularity, debility, debilitating drains, or female weakness, and this suffering is so common and so universal that many women accept it as a condition natural and necessary to their sex, but it is a condition as unnatural as it is unnecessary. The use of Dr. Pierce's Favorite Prescription strengthens the delicate womanly organs and regulates the womanly functions, so that woman is practically delivered from the pain and misery which eat up ten years of her life—between the ages of fifteen and forty-five. "Favorite Prescription" makes weak women strong and sick women well.
